

DEPLOYMENT OF APP IN IBM CLOUD UPLOAD IMAGE TO IBM CONTAINER REGISTRY

Date	19 November 2022
Team ID	PNT2022TMID24922
Project Name	Personal Expense Tracker Application

The screenshot shows the IBM Cloud console interface for creating a new Kubernetes cluster. The browser address bar displays `cloud.ibm.com/kubernetes/catalog/create`. The top navigation bar includes the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user's account (Yuvarani K's Account). The main content area is divided into two columns. The left column contains a breadcrumb trail (Catalog /), a link to the author's documentation (Author: IBM • Docs • API docs), a 'Create' button, an 'About' button, a Red Hat OpenShift banner, and sections for 'Plan details' (with a link to learn more about differences) and 'Kubernetes version' (with a link to select the platform version). The right column features a 'Summary' section for the 'United States' region, detailing the 'Kubernetes cluster' configuration: 'Worker node' (Free, 2 vCPUs, 4GB RAM, Virtual - shared, Ubuntu 18). Below this, it shows the 'Total estimated cost' as 'Free/mo' and includes a disclaimer about additional charges for networking and bandwidth. At the bottom of the right column are 'Create' and 'Add to estimate' buttons.
